

Department of Electrical & Computer Engineering
Rajshahi University of Engineering & Technology

Course Plan / Outline

1. **Course Information:**

Course Title	Legal Issues, Industrial & Operational Management
Course Code	Hum 2217
Course Type	Language and General Education (Theory)
Credit	3.00 (Three Contact Hours per Week), three lecture slots per week according to class routine.
Semester	2 nd Year Even Semester

2. **Instructor Information:**

Name of the Instructor	To be announced before starting of the semester
Designation	
Office Room	
Cell	
Email	
Webpage link	

3. **Prerequisite (if have any):**

4. **Course Rationale:**

This course is designed to provide students with a comprehensive understanding of various legal and operational aspects of industrial and business management. The course includes topics such as business and industrial law, principles of management, human resources management, production management, operational management, and safety management. The course is intended to equip students with the knowledge and skills necessary to effectively manage industrial operations, including planning, organizing, leading, and controlling resources. Students will also gain an understanding of various legal issues related to industrial and business management, including labor laws, employment regulations, and safety standards.

5. **Course Objectives:**

After successfully completing this course, students will-

1. Understand the legal framework of business and industry in Bangladesh, including the law of contract, sale of goods, and employment law.
2. Develop knowledge and skills in the principles of management and operational management, including production systems, inventory management, and facility layout techniques.
3. Learn the key aspects of human resources management, including recruitment, selection, training and development, and performance appraisal.
4. Understand the importance of safety in the workplace, including hazard identification, safety management, and compliance with safety standards and regulations.
5. Develop critical thinking and problem-solving skills through case studies and real-world scenarios in industrial and operational management.

6. **Course Content / Course Description:**

Business and industrial law: Law of contract, elements of valid contract. Consideration, Parties competent to contract. Sale of goods, hire and purchase. Negotiable instrument.

Industrial law in Bangladesh: various ordinance payments of wages, legislation relating employment in industries, factories, shops and agriculture, trade union act.

Industrial Management: Principles of Management, Management functions, Management Skills, Authority and Responsibility, Span of Control, Management by Objective, Consultative Management, Participative Management, Decision Making, Manpower Motivation, Human Resources Management: Manpower planning, recruitment and selection, Employee Training and Development, Performance Appraisal, Wages and Salary administration, Production Management: Plant Layout: definition, basic layout types, problem solving, Linear Programming, EOQ, Lead Time, Safety Stock, Re-order Point.

Operational Management: Production systems, product/service life cycle, forecasting models, bill of materials, material and inventory management: Inventory models, ABC analysis, coding and standardization. Aggregate planning, MPS, MRP, capacity planning, operating scheduling, facility location algorithm, facility layout techniques, work study.

Safety: Evolution of modern safety concepts, industrial hazard, safety and risk management, productivity, worker health and safety, proactive management techniques for safety management, safety standards and regulations for engineering works, fire safety, hazardous materials.

7. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs)**

CLO No.	Course Learning Outcomes (CLO)	PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7	PLO8	PLO9	PLO10	PLO11	PLO12
CLO1	Understand the legal framework related to business and industrial activities in Bangladesh and overseas.												C2
CLO2	Apply principles of management and relevant skills to efficiently plan, organize, motivate and control resources to achieve production goals and improve workforce performance.											C3	
CLO3	Analyze various operational management techniques such as inventory management, forecasting, aggregate planning, facility location, and work study, while also identifying and managing safety hazards in the workplace.												C4

8. **CLOs Assessment Policy:**

CLOs	Class Test	Assignment	Project	Presentation	Final Exam	Others
CLO1	√				√	
CLO2	√				√	
CLO3	√	√			√	

9. **References:**

SL No.	Text Book/Reference Book(s)	Author(s)	Online Availability
1.	Industrial Law	Md. Abdul Halim and Anwarul Karim	Link is provided in Google Class Room
2.	Industrial Law and Labor Relations in Bangladesh	Shah Md. Nuruddin	Link is provided in Google Class Room

3.	Principles of Management	Stephen P. Robbins and Mary Coulter	Link is provided in Google Class Room
4.	Operations Management	Nigel Slack, Alistair Brandon-Jones, and Robert Johnston	Link is provided in Google Class Room
5.	Human Resource Management	Gary Dessler	Link is provided in Google Class Room
6.	Safety and Health for Engineers	Roger Brauer	Link is provided in Google Class Room

10. **Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning assessment strategy mapped with CLOs**

Week	Topic	Delivery Material	Teaching Learning Strategy	Assessment Strategy	Aligned CLOs
1	Business and industrial law: Law of contract, elements of valid contract.	Books	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO1
2	Consideration, Parties competent to contract. Sale of goods, hire and purchase. Negotiable instrument.	Books	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO1
3	Industrial law in Bangladesh: various ordinance payments of wages	Books	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO1
4	Legislation relating employment in industries, factories, shops and agriculture, trade union act.	Books	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO1
5	Industrial Management: Principles of Management, Management functions, Management Skills	PPT slide	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO2
6	Authority and Responsibility, Span of Control, Management by Objective, Consultative Management, Participative Management, Decision Making	PPT slide	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO2
7	Manpower Motivation, Human Resources Management: Manpower planning, recruitment and selection, Employee Training and Development,	Lecture Notes, Books	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation	CLO2

	Performance Appraisal, Wages and Salary administration		☐ Audio/Video ☐ Others	☐ Project ☐ Others	
8	Production Management: Plant Layout: definition, basic layout types, problem solving, Linear Programming, EOQ, Lead Time, Safety Stock, Re-order Point.	Books	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☒ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO2
9	Operational Management: Production systems, product/service life cycle, forecasting models, bill of materials,	PPT Slide, Lecture Notes	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO3
10	Material and inventory management: Inventory models, ABC analysis, coding and standardization.	PPT Slide	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO3
11	Aggregate planning, MPS, MRP, capacity planning, operating scheduling, facility location algorithm, facility layout techniques, work study.	PPT Slide	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☐ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO3
12	Safety: Evolution of modern safety concepts, industrial hazard, safety and risk management, productivity, worker health and safety	Books	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☒ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO3
13	Proactive management techniques for safety management, safety standards and regulations for engineering works, fire safety, hazardous materials.	PPT Slide	☒ Lecture ☐ Tutorial ☐ Discussion ☐ Interaction ☐ Audio/Video ☐ Others	☒ Class Test ☒ Assignment ☒ Final Exam ☐ Presentation ☐ Project ☐ Others	CLO3

11. Virtual Availability of Lecture Materials:

All resources related to this course are available in online platform.

Medium	Google classroom/Zoom/MS Teams etc.
Instructions	
Class Code	

12. Assessment & Marks Distribution:

SL No.	Name of Assessment		Marks	Date
1.	Continuous Assessment	Class Participation and Attendance	10	As Per Class Routine
2.		Class Test	20	As Per Class Test Routine

3.		Assignment/Project/Viva-voce/Presentation etc.	10	Mentioned by the Instructor
4.	Final Examination		60	As Per Examination Routine
Total Marks:			100	

13. **Grading Policy:**

Mark wise grading policy of this course is as follows:

% of Marks	Letter Grade	Point
80 – 100	A+	4.00
75 – 79	A	3.75
70 – 74	A-	3.50
65 – 69	B+	3.25
60 – 64	B	3.00
55 – 59	B-	2.75
50 – 54	C+	2.50
45 – 49	C	2.25
40 – 44	D	2.00
0 – 39	F	0.00

14. **Additional Course Policy:**

SL. No.	Name of the Test	Description
1.	Class Participation and Attendance	Attending classes are mandatory for the students. Students will be marked in a scale of 10 marks according to Academic Ordinance for the Undergraduate Studies.
2.	Class Test	For this course, four class tests will be held and marks of each class test is 20. Best three class tests average mark is counted as the score of class test. Any unfair means is strictly prohibited in the examination hall.
3.	Assignment/Project/Viva-voce/Presentation etc.	All the assessment strategies are considered as regular assessment. The course teacher will assign works to the students and evaluate them with a scale 10 marks that will be counted as regular assessment marks in final scoring.
4.	Semester Final	For this course, semester final examination will be held according to examination routine at end of this semester. Semester final examination contains 60 marks. Any unfair means is strictly prohibited in the examination hall.

15. **Students Policy with Physically Handicapped:**

Students with disabilities are required to inform the Department of Computer Science & Engineering of any specific requirement for classes or examination as soon as possible

16. **Generic Skills (Indirect):**

SL. No.	Generic skills	Attained Generic Skills (Please tick against the relevant skill)	How the skills will be developed
1.	Presentation skill		
2.	Writing skill		
3.	Interpersonal skill		
4.	Leadership skill		
5.	Community skills
